BRITISH AIRMEN WHO NEVER FLY

Men of the armoured car section of the British Royal Air Force never fly, but they form a vital part of the British air organization in the Middle East. Here a section is seen on patrol.

LOCAL NEWS

Mrs. A. J. Tuisku and son, Walter are visiting friends in Port Arthur and district.

Mrs. C. G. Taylor is visiting her daughter at Port Arthur for a few weeks.

Friends of Harry Taylor will be sorry to hear that he was confined to his bed last week with an attack of flu.

The local Boy Scouts' bake sale sponsored by the Women's Institute proved a great success.

Mrs. P. Gatenby was the lucky winner of the quilt which was donated to the Red Cross by Mrs. M. Roberts, of Los Angeles, California.

Hugh Miller, who is connected with the R.C.A.F. at Moose

Jaw has been granted a short leave and is visiting his parents and friends at Champion for a few days.

A Massey Harris Tractor school was held at Champion Friday afternoon, Feb. 21st. Considering the cold weather there was a good attendance and one and all were quite favorably impressed with the moving pictures. Company men at the school were, H. D. Boucher, assistant manager and J. Caswell of Calgary and F.W. Tweedle the Blockman for Champion district. Boucher told the audience that all things being equal — they should keep their money in Canada by buying goods made in Canada, saving the exchange, the war tax and helping Canadian industry. W. L. Little won the prize of a \$25 credit on a combine, tractor or thresher. J. Ellis second prize of \$10 on a one-way disc, seed drill or

Champion I. O. D. E. Reviews Work

The first annual meeting of the Lael chapter I. O. D. E. was held on Thursday, February 20th, with Mrs. E. H. Freeze elected regent. The activities of the past twelve months were reported, showing a very successful start for a new chapter. There were 13 members in attendance.

The order showed a membership of 26, three of whom were lost during the year due to their departure from the district.

The Red Cross had not been able to secure a war work covenor and eagerly accepted the offer of Lael chapter to take this responsibility in January, 1940. From January until July war work was handed out from the homes of Mrs. E. H. Freeze and Mrs. O. P. Thomas. In July the municipality granted rooms above the office for war work, and each Saturday two members of the I. O. D. E. are on hand to handle and distribute work.

Various organizations have selected afternoons and evenings during the week to sew. In consequence considerable work is being accomplished, 114 pieces of knitted goods and 583 pieces of hospital supplies, along with three patchwork quilts, being forwarded to headquarters during the year.

The chapter sponsors the Scout and Cub organization and are watching both groups make steady progress.

Christmas boxes were made up and sent to 11 boys who are in active service. A military ball was held which netted \$103.80, the amount going toward defraying the transportation expenses of the boys who are in the reserves. Cash donations national and other war funds during the year consisted of National War Guests' fund, \$5; Bomber and Aircraft fund, \$70; sock fund, \$3.

In addition to this, one other phase of work was entered upon, that of Child Welfare.

The following were elected to office: Regent, Mrs. E. H. Freeze; first vice-regent, Mrs. H. C. Jopling; second vice-regent, Mrs. H. T. Lamont; secretary, Mrs. O. P. Thomas; educational secretary, Miss Edith Schultz; Echoes secretary, Mrs. J. Mark; treasurer, Mrs. A. Butler; standard-bearer, Mrs. H. Smith; councillors, Mrs. P. Dawson, Mrs. G. Dow and Mrs. R. S. Bond.

Mrs. E. H. Freeze was appointed councillor to attend the national convention in Edmonton in April, and Mrs. O. P. Thomas delegate to attend the Provincial convention in Calgary.

The next meeting will be held Thursday, March 20th, at the home of Mrs. J. Mark.

binder and Martin Edenloff of Lomond was the winner of the third prize, a set of wrenches.

The moving pictures, a feature of the school, were highly educational and interesting.

Miss Geraldine Farmer, of the Carmangay teaching staff, is reported to be seriously ill with pneumonia and is a

Champion Annual Bonspiel Competition Results

LADY ASSUMES RESPONSIBILITY

The Chronicle wishes to congratulate Mrs. Harry Smith upon her acceptance of membership on the Consolidated School Board. We have every confidence that the community will benefit from her selection, she will be able to give a viewpoint not previously heard at the Board meetings.

We recall the appointment of the first lady trustee in a certain city many years ago, out of respect to the lady we shall not mention how long ago it was. Considerable interest was shown for and against the interference, as it was put, by the women in the school affairs. Now, however, this lady is recognized as an authority on educational matters. Women appear on school boards in many districts, and serve a useful purpose. They bring to the attention of the management many little things which otherwise have been passed by for years.

Yes we feel that Chairman Fleming and the Board have a worthy successor to R. A. Maxwell, who served with such unselfishness and earnestness.

JUST A FEW DAYS

February has been set for the purchase of war Savings certificates and we wish to make a final appeal for the support of the local committee and those who are pushing the sale in the districts covered by this paper.

Those who have read the addresses of Premier King and others in the House of Commons realize the seriousness of the battle which we are engaged in and only with all pulling together can victory be achieved.

We may not be satisfied with our present economic system, of unequal distribution of wealth, of poor prices for farm products and many other important problems but if we lose the war Hitler will not even hear our complaints but order what has to be paid.

Let's all pull together in our determination to show that Champion, Carmangay and other districts are doing not only their share but more in the war effort.

Wedding Bells— Witting—Scott

Margaret Irene, only daughter of Mr. and Mrs. W. J. Scott of Champion was united in marriage to Lloyd Arthur Witting, son of Mr. and Mrs. Roy Witting of Lomond on Tuesday, February 18th at 3 o'clock in Calgary.

Rev. A. D. MacDonald of that city performed the ceremony.

The bride wore a floor length gown of white silk net over satin with a bridal veil and silver sandals. She carried a bouquet of white and pink carnations. She was attended by Miss Ethel Witting, of Calgary, sister of the groom. The groom was attended by Charles Andrews, of Calgary, a close friend.

Only immediate relatives and friends attended.

After a week in Calgary the couple will reside at Lomond, Alta.

Local Entertainment Aids War Effort

A number of local enthusiastic boosters for the selling campaign of War Saving Certificates went into a huddle the first of the week with the result that Fred Clever volunteered the use of his moving picture camera to screen a number of interesting pictures—Fred acting as projectionist—and the show was put on in Campbell's hall (contributed by G. M. Campbell) Wednesday evening after F. M. Watts had practically sold out the house at a dime admission. The affair netted \$21.10. A ticket holders draw decided the winners—Harry Smith, Oliver Mifflin, D. McLaughlin, W. Ferris and B. C. Cafe each winning a five dollar for four Certificate, and to J. Mark went the dollars'

worth. The show was much appreciated by a large audience.

The sponsors talk of repeating at Carmangay.

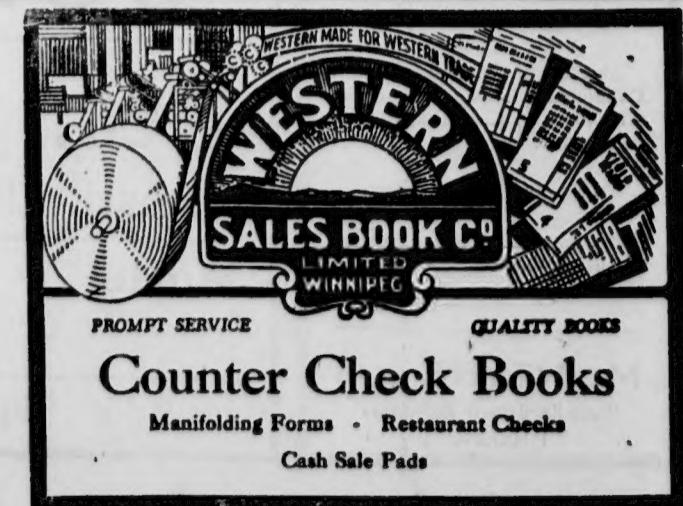

WHAT money? Why—the money in the banks! The money carefully put away by you and your neighbours in savings accounts. The money you *could* have spent today but wanted to keep safely against some future need. The businessman's money for use in his normal operations. There are more than 4,846,000 bank deposit accounts, savings and current. Within these two classes the great majority of deposits are small or of moderate amount. **C** But you'd be wrong if you assumed from this, that the rest of the deposits are owned by the few! Quite the contrary! The railways, for instance, have deposits in the chartered banks—and that indirectly includes the whole population of the Dominion. The trade unions have deposits. Millions of policy-holders share in the ownership of insurance companies' deposits. **C** And don't overlook the deposits of wheat pools; farm co-operatives; churches; municipalities and municipal hydro commissions, school districts; school children's penny bank savings deposited with the chartered banks; and commercial and mining corporations with very wide lists of shareholders, large and small, all over Canada. Truly, money on deposit in Canada's chartered banks is owned, *in fact*, by you and your fellow-Canadians.

In war, as in peace, Canada's Chartered Banks maintain, uninterrupted, their useful services—safeguarding depositors' funds; facilitating the nation's business—looking forward to peace with freedom as the only sure basis of enduring prosperity.

THE CHARTERED BANKS OF CANADA

SAVE and LEND for VICTORY

Your Dollars will Come Marching Home

Your pennies, your quarters, your dollars are needed in this war as much as the men at the front

THEY are pledging their lives... will you not pledge your dollars?

THEIR lives may depend upon the planes, the bombs, the guns, the ships YOU help to supply.

Will you refuse to back them up?

VICTORY will come sooner if you save and lend to the limit. Will you shirk YOUR part in shortening the war and hastening Victory?

YOUR dollars will come marching home when Victory is won, to bring security after the war.

Will YOU miss the thrill of having shared in the Victory, of having helped to build a sound Peace?

Soil Conservation

In an address at Calgary recently, L. B. Thomson, Superintendent of the Dominion Experimental Station at Swift Current, made some interesting observations and practical suggestions when speaking on the subject, "Soil Conservation in Relation to Reduced Wheat Acreage." His remarks had application to the prairie or plains area. He divided his subject into three parts:

1. Good farm land.
2. Abandoned land adjoining good land.
3. Abandoned land and farm grazing units.

An increase in summerfallow is recommended for the good soil areas. He stated that the two year rotation of wheat and fallow will yield, with a lower production cost, almost as much wheat as the three year rotation. Other advantages gained would include an improved condition of land for crop in 1942, and less damage from insect pests. Mr. Thomson suggested that on practically every farm soil drifting has its origin in small localized areas which start to drift. These areas should be seeded down to grass to prevent spreading of the problem. Mr. Thomson recommends a vigorous policy of regrassing sub-marginal areas which adjoin good farm land.

The problem of handling large areas of non-arable land in southwestern Saskatchewan and south-eastern Alberta is to keep these lands out of cultivation and in a satisfactory condition for grazing.

The necessity of curtailing Canadian wheat production is open to debate. However, if automatic reduction in wheat production as a result of extractive methods of farming is to be avoided, the points raised by Mr. Thomson must receive early consideration.

The PERFECT WORK GARMENT FOR
MEN AND BOYS, at

CAMPBELL'S

Sixty Years of Progress

Sixty years of faithful and valuable service to Canada form the background for the sixtieth anniversary of the Canadian Pacific Railway Company in mid-February.

On February 15, 1881, the Government of Sir John A. Macdonald granted a charter for the building by a private company of a railway to the Pacific Coast. Two days later, the Canadian Pacific Railway Company was organized on an official basis and a glorious new era of Canada's history had begun.

The Canada of 1881 was an infant country, its sparsely settled portions separated from each other by dense wilderness. Confederation itself was in danger because of lack of communication between provinces. Railway connection with British Columbia had been promised but in ten years the work accomplished had been negligible.

The story of the building of the transcontinental line can be summed up in the statement that it was completed in half the time called for in the charter, with a pitifully small subsidy considering what had been granted in other places, and in face of the

most bitter of political opposition. Time and again the whole project, including every cent of the builders' personal fortunes, seemed lost. The growth of the Canadian Pacific Railway and of Canada represents sixty years of mutual co-operation, each aiding in and benefiting from the other's strength and prosperity.

In 1881, Canada was a country with 4,324,810 population, possessing total export trade of \$83,944,701 and import trade of \$90,488,329. Its field crops were worth \$155,277,427, its dairying \$22,743,939, and its manufactures \$309,676,068. In the last year of record, Canada's estimated population was 11,315,000, exports totalled \$1,178,954,000 and imports \$1,081,950,000. Field crops were worth \$651,228,000, dairying \$217,716,029 and manufactures \$3,337,681,366.

The Canadian Pacific Railway's growth in the same period has been equally amazing. There was practically nothing in 1881. Now the company has 17,169 miles of rail lines in Canada, 55 ocean, coastal and lake steamships, hotels with a total of 5,294 rooms as well as summer lodges, 1,767 locomotives and 82,714 pieces of rolling

stock. Its property and equipment represent an investment of more than one billion dollars. Other facts of interest concerning the world's greatest transportation system are that it operated 370,000 circuit miles of telegraph line last year and carries 120,000 passengers across the Atlantic in a normal year. In 1940 the Canadian Pacific rail services carried nearly eight million passengers a total of more than 924 million passenger miles, in addition to transporting approximately 37 million tons of freight representing more than sixteen billion ton miles. During last year the company paid out in taxes more than nine million dollars and, since incorporation, a total of approximately 172 million dollars. The gross earnings in 1940 totalled \$170,964,000, every dollar of which represented a unit of service to the Dominion and the Empire.

The illustrations above are symbolic of 60 years of progress and show an early stage coach which was more romantic than comfortable; the arrival of the first transcontinental train at the Pacific Coast on July 4, 1886, and the modern transcontinental train, "The Dominion."

were served by Mrs. Gatenby, assisted by Miss Margaret Gatenby. Cakes bearing 17 and 18 candles respectively were the centre of attraction. The party extended into the wee hours of the morning and a good time was reported by all.
